THE L. D. WALLER SEED COMPANY

GUADALUPE, CALIFORNIA

Foreword

To the Trade:-

The fact that we were one of the few California firms having surplus sweet peas in 1913 should be sufficient evidence that we can raise a crop under the most adverse circumstances.

Every acre of our land is under scientific irrigation and cultivation.

We make a specialty of high grade SPENCERS and have made selections from the best European and American stocks.

Our Mr. Waller who has had 20 years experience as a seedsman personally attends to the rogueing of the growing crops.

The prices quoted herein are as low as we can consistently make them and maintain our standard for quality.

We solicit correspondence in regard to special prices on large quantities and special terms on early orders, we are also prepared to grow from customers stocks and pay particular attention to this branch.

QUALITY first, last and all the time has been our watchword.

We take this opportunity to thank our patrons for their generous support in the past and trust that we will merit their continuance.
